

There is an active force inside your facility helping with even those insignificant tasks which make everything run smooth and in perfect harmony. We know the value of that force of volunteers; people helping people and often times not recognized properly or fully rewarded. Our designs reflect that immense feeling of appreciation that is inside of you for this group of special people, but words can not fully express. These special designs are created by our art department and will not be found anywhere else. You can place them on a long lasting 100% cotton t-shirt that has been pre-shrunk for better wear, or on a 15"x15" natural canvas totebag for the ladies. We can customize your order and include any information you desire or even create a special design for your facility at your request. Best of all, we give all our customers a 30 Day Net purchasing power that allows them to order our product and pay for them 30 days after the order is fully delivered. Why wait? Our every day low prices will allow you to recognize every one of them with a gift they can wear all year around. Call us today and let us know how we can help you to recognize this wonderful group of people during this special week, or during any other event throughout the year.
