

# ST. PATRICK'S DAY

Do not forget to wear green on this very special Holiday celebrated by all... well, unless you want to be pinched! This day is filled with tradition and culture and it is one that adds lots of fun and laughter to our daily schedules. Your residents will love the designs that we have selected for this unique time, and they will love wearing them in our long wearing, 100% cotton, pre-shrunk t-shirts. We can also place them on a 15"x15" natural canvas totebag for the ladies to display their Irish sentiment and heritage while they carry their personal stuff everywhere safely. You can also utilize our products as a fund raiser to help your budget along during these hard economic times. Just order a six pack with six different designs and display them in your facility for your staff and residents to choose. We will give you thirty days to pay after you receive the products and you can order everyone's choice of designs, colors, and sizes in one big order. With our low prices, you can set your own low price and still make a profit. Call us Today for details!
